IF YOU suffer from low back pain and sciatica, you are one of over 20 million adults in

the US with this often crippling spinal condition.

Shooting, stabbing and burning pains from the low back, sometimes with additional pain through the buttocks and down the legs are all symptoms of a pinched nerve often called "sciatica".

In severe cases, it can lead to muscle wasting, numbness and constant tingling down to the tip of the toes. Left untreated, the intense pain can rapidly wear you down and drain the joy out of life.

That is, until now...

Recent advances in the treatment of sciatica and lower back pain have led to the development and huge success of Non-Surgical Re-Constructive Spinal Care.

The excellent results of this treatment have been published in major medical journals. With success rates as high as 90% some back surgeons recommending their patients try this treatment first before having back surgery.

In Bakersfield, you can try Non-Surgical Re-Constructive Spinal Care at the office of the man who has dedicated the last 28 years of his life to helping people with low back pain and sciatica... Dr. Douglas Brooks.

Special Bakersfield Californian reader offer:

Breakthrough relief for back pain and sciatica

Dr. Brooks and his team have helped over 4,000 patients find relief from their agonising back pain and sciatica.

According to Dr. Brooks, "We use an important combination of technology, for precisely diagnosing the cause of your low back pain and sciatica; and a complete program for reconstruction of the damaged area causing the pain; this means superior long-term results for most people."

Because the treatment is non-surgical, safe and easy, most patients report an almost immediate relief from their pain. Patient Jeff P. says, "My back pain was unbearable, but the worst thing was the searing burning pain I felt in my buttock and leg.

I couldn't work or do anything useful and the drugs my GP prescribed hardly did anything.

My wife insisted I respond to one of these ads, I thought it would be a total waste of time, but I'm so glad she kept on at me.

Thank God, I called your number, I'm 95% better in just a couple of weeks."

Your invitation for a comprehensive consultation and examination to pinpoint the cause of your low back pain and sciatica.

Spine therapy specialist Dr. Douglas

Brooks has teamed with The Bakersfield Californian to help readers find relief from their persistent back pain.
